

Headless Agent Workspace Blueprint (.agents & Docs)

Permanent disk memory structure for zero-context-loss autonomous execution

.agents/ Root Directory

- agents
 - rules/
 - rtk-protocol.md
 - ponytail-minimal.md
 - hard-boundaries.md
 - test-first.md
 - prompts/
 - orchestrator.template.md
 - storyteller.template.md
 - implementer.template.md
 - storyconnector.template.md
 - reviewer.template.md
 - skills/
 - .unittest/SKILL.md

 - .cleancode/SKILL.md
 - .scenariowriter/SKILL.md
 - .eventwriter/SKILL.md
 - .handoff/SKILL.md
 - .architecture/SKILL.md
 - state/
 - phase.md (Task Backlog)
 - progress.md (Current %)
 - active-session.json

Single Source of Instructions & Templates for Headles

Backend Repository: beauty-saloon-api/

- beauty-saloon-api
 - AGENTS.md (Rules & Hard Boundaries)
 - CONTEXT.md (Domain Glossary)
 - BarberSalon.sln
 - src/
 - BarberSalon.Domain/
 - BarberSalon.Application/
 - BarberSalon.Infrastructure/
 - BarberSalon.API/
 - tests/
 - BarberSalon.Domain.Tests/
 - BarberSalon.Application.Tests/
 - docs/
 - examples/
 - SalonService-complete.md
 - architecture/
 - agents-loop-architecture.bmpr

Verification & Governance Gate

1. XML Documentation on all public types
2. Swagger [ProducesResponseType](#) coverage
3. Zero MediatR / Zero CQRS / Zero Identity
4. EF Core migrations strictly in Infrastructure
5. Soft-delete only (IsActive = false)

Strict Pre-Task Checklist Enabled

Frontend & State Memory

- beauty-saloon-front-V2
 - src/
 - components/ (UI & Forms)
 - store/ (Redux Slices)
 - services/ (API & Mock Handlers)
 - types/ (Contract DTOs)
 - docs/
 - PROJECT_DOCUMENTATION.md

State & Memory Files

File-based Shared Memory:

- memory/phase.md: Current sprint tasks
- memory/handoff.md: Last agent output
- memory/review.md: Review verdict & notes
- memory/progress.md: Completed % board

Guarantees zero context drift across subagent sessions.

Memory System: Sync-Checked
